Q1 2022 NEWSLETTER

Are you dreaming of spring planting?

We are now booking equipment for spring maintenance and tune ups. Do you have implement equipment to get ready for planting season? Do you have trucks that need inspections? Current lead times are 4-6 weeks, so contact us today to get on our schedule.

WELCOME, RUPERTO “JUNIOR” MARTINEZ!

We are thrilled to have this West Liberty High School graduate on staff. He graduated from high school in May 2021 and graduated from Muscatine Community College a month later. Now that's impressive! He's made a big impact on our welding team.
